FC 4-4 Battery Set, 1.056-407.0, 2026-11-19

[1] The Kärcher hard floor cleaners achieve up to 20% better cleaning performance compared to a conventional wiping mop with a wiping cloth cover in the "Wiping" test category. Refers to average test results for cleaning efficiency, dirt pick-up and edge cleaning. [2] The Kärcher hard floor cleaners save up to 50% of the time required for cleaning, as hard floors can be cleaned in a single step when they are covered in normal household dirt, eliminating the need for vacuuming before mopping.

All-in-one: Removes all kinds of dry and wet everyday dirt in a single step

- 50 per cent time saving: Coarse dirt pick-up technology enables wiping without the hassle of vacuuming beforehand.
- Optimum hair pickup by means of integrated hair filter.
- Cleans right up to the edge.

Wiping is 20%[1] cleaner than using a wiping mop and significantly more comfortable.

- With a twin tank system you are only ever using clean water and detergent on your floors. Th dirty water is collected in a seperate water tank.
- Effortless: No dragging a bucket around, no wringing out the floor cleaning cloth by hand, no scrubbing.
- Rollers are machine-washable at up to 60 °C.

Two different cleaning modes

- Roller rotation and water quantity are adjustable according to the type of dirt and floor.
- Suitable for all hard floors – including parquet, laminate, stone and ceramic tiles, PVC and vinyl.
- Low residual moisture means that floors can be walked on again after approximately 2 minutes.
