Newly developed roller brush head

- Greatly improved sweeping results and prevents squeegee blockages.
- The rollers can be changed in a matter of seconds and without tools.
- Excellent cleaning results.

10 km/h driving speed

- Enables a high area performance in next to no time and quick transportation operations.
- The steering angle sensor acts as a safety feature when driving in curves.
- There is automatic braking if speed is too high when driving in curves.

Includes two turbines as standard

- Excellent vacuuming results on all surfaces.
- Wear-free Ec turbines.
- Optimised airflow with the newly developed squeegee.
