

## K MOP 46

The K-Mop 46 impresses with its intuitive operation, effortless handling with comfortable propulsion and powerful suction power. For first-class cleaning results on all hard floors.

Order no. 1.783-484.0

- Compact and extremely manoeuvrable. 4 litres each of dirty water and fresh water, 46 cm working width
- Battery charger and battery not included, max. 1840 m<sup>2</sup>/h
- Red disc brushes, curved aluminium squeegee

## Simplest handling

- Pleasant propulsion via counter-rotating brushes.
- Edge cleaning using bumper rollers without damaging the inventory.
- 360° cleaning by tilting the drawbar in all directions.

## Most intuitive operation

- Voice-free HMI for setting the most important functions.
- Well-known Kärcher colour coding (yellow controls).
- Low training costs thanks to intuitive design.

## Ergonomics

- Developed in collaboration with ergonomics experts.
- Height-adjustable handle for perfect adjustment to any body size.
- Reduced hand weight during operation thanks to well-thought-out component layout.

| Suction lip set, Linatex®, 630 mm                                 | 3  | 4.600-067.0 | Thanks to the good adaptability to floor coverings, the tear-proof Linatex® suction lip set is especially suitable for structured floors and ensures good wiping and suction results.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  | ■ |
| Suction lip set, oil-proof, 630 mm                                | 4  | 4.600-068.0 | FloorPro Wipe Care Extra RM 780 is the ideal everyday cleaner after coating with our RM 784 Care Dispersion and RM 782 Protect Dispersion. The detergent and care agent based on water-soluble polymers does not form layers on surfaces, reliably removes grease, oil and mineral contamination and is also suitable for more delicate floor coverings such as elastomer (rubber) or PVC. It can also be used on dissipative ESD floors and, thanks to its anti-slip properties confirmed by experts in accordance with DIN V 18032-2:2001-04, is particularly suitable for cleaning in sports and multi-purpose halls. The low-foaming FloorPro Wipe Care Extra RM 780 is designed for use with scrubber dryers as well as for classic manual cleaning. Professionals in the building cleaning sector also benefit from the high user safety of the non-toxic agent. | □ |

| Pad green set 5x Ø230 9", medium-hard, green, 230 mm, 5 Piece(s)  | 10 | 6.944-032.0 | Highly alkaline FloorPro Tyre and Abrasion Marks Remover RM 776, specially designed for spot cleaning and deep cleaning of industrial floors, flowing and cement screeds, and surfaces coated with epoxy resin. The separator-friendly special cleaner is applied using the two-step method - it is applied with a spray unit before the dirty water is removed with a scrubber dryer after a clear contact time. The highly effective detergent completely removes rubber abrasion marks and marks from forklift trucks, as well as residues from adhesive tape and heavy oil and soot contamination. Metal and paint processing companies using FloorPro Tyre and Abrasion Marks Remover RM 776 also benefit from its formulation, which contains no silicones.                                                                                                      | □ |
