Flexible side wings

- The flexible hand nozzle adapts easily to the curves of sinks and bathtubs, for example. The cloth cleans a wide variety of surfaces efficiently without leaving any residual dirt behind.
- The tapered side wings make it easy to clean even hard-to-reach areas, e.g. behind taps.

High-quality microfibre cloth

- The special loop structure of the cloth ensures particularly good dirt pick-up and thorough cleaning results.
- Device washing up to 60 °C possible. Do not use any softeners.

Convenient hook-and-loop system

- The cloth attaches to the hand nozzle simply by pressing it on.
- The cloth doesn't slip during cleaning.
