Innovative slats on floor nozzle cleaning surface

- Lamellas on the cleaning surface ensure targeted steam distribution.
- Larger cleaning area for an even more effective cleaning and more thorough cleaning result.
- The cloth is fixed to the floor nozzle on a maximal surface. More dirt is removed and absorbed.

Innovative fixation mechanism to fix the cloth

- Easy fixture of the cloth at the floor nozzle.

COMPATIBLE MACHINES

- SG 4/2 Classic
- SG 4/4 Compact Steam Cleaner
