Application

Spray method
The cleaning water is applied to the floor directly in front of the mop, then the surface is wiped.

Preconditioned method
For optimum results, dampen the mop with cleaning water amounting to 250 % of its own dead weight.

Properties

- No direct skin contact with the used cover
- Simple: quick and easy change of the mop
- Efficient: the tufted loop system ensures direct fastening of the yarn to the backing layer and guarantees a long life of the mop
- High absorption capacity: the narrow structure of the yarn ensures a high area performance and saves water and detergent
- Powerful: the cleaning solution is evenly distributed on the floor which makes cleaning easier

Washing instructions

- Do not wash with other textiles
- Do not use bleach, softener or strongly alkaline detergents
- Washing or drying at high temperatures can negatively affects the durability
- Thoroughly rinse the textile before washing it
- Please do not dry in the dryer
