IVR ID 130/22 WITH ARM

Mobile, three-phase powered industrial dust collector ID 130/22 with extraction arm for vacuuming fine shavings and hazardous dusts (OEL > 0.1 mg/m³). Equipped with a resistant steel casing and designed for low-maintenance use.

Made in Germany

0–24 h

Order no.	9.990-920.0

- Ready for immediate use thanks to suction arm
- Very quiet IE3 radial fan
- 170-litre stainless steel collection container

Technical data		
EAN code		4066529201317
Number of current phases	Ph	3
Voltage	V	400
Frequency	Hz	50
Air flow	l/s / m³/h	370 / 1329
Vacuum	mbar / kPa	33 / 3.3
Container capacity	l	170
Rated input power	kW	2.2
Vacuuming type		Electric
Filter area	m²	9
Nominal size		DN 140
Sound pressure level	dB(A)	75
Main filter dust class		M
Weight without accessories	kg	182
Weight incl. packaging	kg	182.6
Dimensions (L × W × H)	mm	1170 × 780 × 1580

Designed for dust class M for high occupational safety

- Dust class M filter engineering for vacuuming hazardous dust (OEL > 0.1 mg/m³).

Simple and safe emptying without removing the drive head

- Set-down trolley and rolling container for ergonomic emptying.

Low-dust emptying system for hazardous dusts of dust class M (OEL > 0.1 mg/m³)

- Dust-free emptying thanks to PE sack with integrated closing mechanism.
- Simple disposal of dust in a PE sack.

FILTERS				
Cartridge filters				
Cartridge filter 9m², Kat. "M", ID 130/2	1	9.980-229.0	VehiclePro Liquid Leather RM 833 is the perfect drying aid for commercial vehicle wash systems without blow drying. Its special formulation forms a closed film of water that runs off vertical surfaces without making droplets and then dries without streaks or stains – ideal for cleaning vehicles with large visible surfaces, such as buses. In addition, VehiclePro Liquid Leather RM 833 also has cleaning properties due to its active ingredient base and can therefore be used as a brush shampoo in systems with only one dosing device. Of course, the surfactants contained are biodegradable in accordance with EEC 648/2004.	■
